

For more than a century, we have been shaping progress in our product sector as technology leader – whether it's starter motors, generators, start/stop systems or mild hybridization. Innovation, development expertise and the highest quality standards make us a reliable partner for automotive manufacturers – at 16 locations worldwide. Our products are not only efficient and durable, but also provide high functional flexibility and the right answers for global product platforms and more stringent CO₂ requirements.

Management Controller | Process improvement and report automation

Join our company for shaping the future of mobility. And yours.

You are there when we work together to shape the future of mobility! Become part of our interdisciplinary, international team at the location in Vila do Conde, Portugal. SEG Automotive Portugal, Unipessoal Lda. is the SEG group's Shared Service Center.

How your future looks like with us

- Work together with the controlling team on:
 - Improvement of controlling processes;
 - Standardization and automation of reporting files;
 - Implementation of RPA processes in controlling areas together with RPA process experts.
- Be a coach for the controlling team regarding process automation;
- Analyze processes and reports and give suggestions for improvements;
- Support the controlling team in the implementation of a new ERP system (Infor LN);
- Support the controlling team in month-end closing, forecasting, and business-planning activities (planning and tracking of cost and major KPIs, deviation analysis, and the definition of measures to close potential gaps);
- Ensure high standards and quality of data reported to the main stakeholders.

What you bring with you for a future with us

- Bachelor's or master's degree in Finance, Business Administration, Controlling, or similar;
- 3- 5 years of experience in Controlling, Audit, or similar in an internationally operating company, with experience in Process Improvement;
- Strong MS-Office skills with advanced Excel level;
- Strong knowledge of macros and report automation (VBA, Power Bi, Power Query);
- Soft skills: Analytical thinking; a structured way of working; strong communication and organizational skills; Team player, good presentation skills; detail-oriented with a high level of accuracy; independent and proactive work behavior; Very professional level of English, spoken and written (mandatory).

What we will offer you in the future

- The opportunity to shape the future of mobility, with a lot of innovation, the scope for design, and responsibility. This is supported by attractive additional benefits, such as flexible working hours and a hybrid working model.
